UNRAVELING DAVID AND GOLIATH

From the time we were small children in a Christian home we heard the story of a shepherd boy named David who killed a giant named Goliath. While the story is true, we were never told where Goliath came from, who his mother was, why didn't Goliath show up on any of the other battles with the Philistines, what happened to Goliath's sword, why did David say, "in sin did my mother conceive me", why didn't Jesse tell Samuel about David and so much more.

In this book you will find out the answers to those questions, why Goliath hated the Israelites and this book will change the way you look at this story forever.

We are going to re-wind time and unravel the mystery of the story of David and Goliath as it was really seen in the eyes of history. The story of David actually had its beginning all the way back to Noah.

I have attempted to bring the reader through time to get a whole new look at this event, and see what the real battle was all about.
